

GRACE Home School Association

Registration is now closed!

GRACE registration is now closed. We are at capacity and, with the exception of a few classes listed here, are no longer accepting enrollments.

Current GRACE families already registered may continue to add classes or be added to the wait list if the class is full.

While we are pleased that the desire for parent-directed education has dramatically increased, we believe it necessary, in the interest of providing the quality experience our GRACE community has come to expect, to take this step at this time.

You may contact us to be placed on a waiting list. Additionally, please check this space for updates as we have been encouraged to respond to your needs.
